# Screenshot Variation Comparison

## Okay

Typical screenshot taken at 100%, at a resolution of 96 dpi.

## Better

Typical screenshot taken at 100%, at a resolution of 96 dpi, but edited in Photoshop to increase to 300 dpi using resampling option Bicubic Smoother (enlargement).

## Best

Screenshot taken using SnagIt, with settings at 400% image scaling and a resolution of 300 dpi.
